

## "The Great Struggle of Our Age"

*"In the late 20th century, and into the 21st, no issue has been more important in the United States than abortion...abortion is the issue of the day **in which an entire class of people have been denied their humanity** — completely. The very personhood of the unborn is denied, and the consequence in the United States alone has been 50 million deaths."* - By Supreme Knight Carl A. Anderson 1/1/2021

Canada, on the other hand, has seen over 4 million deaths to abortion - abortion for any reason from conception until the child has completely exited the birth canal. We are the **ONLY** democracy in the world with no protection for preborn child.

While many of us understand the grave injustice that abortion is, we do not feel prepared to defend our position in today's hostile culture - even within our own family and friends. And if we don't feel prepared, who will prepare our children and grandchildren. We need **FORMATION**.

Winnipeg Life's Vision has licensed, through CCBR, an unlimited license to use the Study Series "A Christian's Guide to Defending Life in the Womb" to provide this formation. It is also about healing those who have suffered from abortion - all too common in today's secular world - 1 in every 4 pregnancies in our country.

This series is designed to run over five weeks, meeting once a week. Sessions begin with a 30 min. educational video by one of CCBR's speakers and continue with small group discussions guided by facilitator and participant guides.

This program will be offered virtually in these times and will be offered in person as restrictions are lifted. Please contact the parish office if you are interested in attending this study series. We will schedule these sessions based on your availability.
